Objective

Aspiring IT professional seeking an opportunity to apply and enhance skills in web development and UI/UX design by contributing to innovative projects in a dynamic organization.

Education

Padre Conceicao College of Engineering, Goa
Bachelor of Engineering in Information Technology — Sept 2021 – July 2025

Skills

Languages: SQL, C, C++, Java, Python, JavaScript, TypeScript,

Databases: MySQL, MongoDB, PostgreSQL

Frameworks & Libraries: Flutter, React.js, Next.js, Tailwind CSS, Laravel

Backend & APIs: Node.js, Firebase

Tools & Platforms: UI/UX Design, Graphic Designing

Core Skills: Database Management System (DBMS), Data Analysis, UI Development

Professional Experience

Associate Software Engineer — *Dec 2025 - Present*
WealthNest.AI

- Managed and optimized PostgreSQL databases to ensure data integrity, efficient queries, and reliable application performance.
- Developed scalable, user-friendly features for a wealth management mobile application using Flutter for cross-platform interfaces.
- Designed and implemented secure, high-performance backend APIs using FastAPI and Python to support core financial workflows.

Skills: PostgreSQL, Flutter, FastAPI, Python, REST APIs

Flutter Full-stack Developer — *Sept 2025 - Nov 2025*
Haztech Innovations

- Contributed to the development of a Pet Adoption Application, implementing new features and UI/UX improvements using Flutter and Dart, enhancing user experience and performance.
- Integrated real-time functionalities and backend enhancements using MySQL, Laravel, Socket.IO and Firebase, ensuring seamless data synchronization, secure data handling, and efficient notification delivery

Skills: MySQL, Flutter, Dart, Laravel, Socket.IO, Firebase, REST APIs

Web Developer Intern — *Jan 2025 - April 2025*
Glance Automation Pvt. Ltd.

- Built responsive web interfaces using HTML, CSS, JavaScript, and React.
- Assisted in UI/UX enhancements to improve user interaction.

Skills: HTML, CSS, JavaScript, React.js, UI/UX, Arduino, Embedded C/C++, Raspberry Pi

Projects

- **Keep Notes Application**: A full-stack notes management application built with React.js on the frontend and Oracle Database on the backend. It allows users to create, view, update, and delete notes through RESTful APIs, ensuring smooth data handling and storage.
  Tech Stack:: Oracle DB, CRUD, React.js, REST API.

- **Wealth Management Application**: Contributed to the development of a full-stack wealth management mobile application, focusing on user-facing features and core application flows using Flutter. Built secure and scalable backend services with FastAPI and Python, and managed structured data using PostgreSQL.
  Tech Stack: PostgreSQL, Flutter, FastAPI, Python, REST APIs

- **Pet Adoption Application (Petba)**: Made major contributions to a cross-platform pet adoption app by implementing key features and UI/UX improvements in Flutter. Worked on real-time functionalities, notifications, and backend integrations using Laravel, Socket.IO, Firebase, and MySQL, ensuring smooth data flow and reliable performance.
  Tech Stack: MySQL, Flutter (Dart), Laravel (PHP), Socket.IO, Firebase.

Certification

Affective Computing
NPTEL (National Programme on Technology Enhanced Learning) in collaboration with Indian Institute of Technology Kharagpur
